"That I decided in 1916 to adopt the methods and schemes
of the P.N.E.U. has always been a source of satisfaction to
me. The programmes of work have always been full of interest -
~~and~~ the studies they provided have been greatly enjoyed -
I can say without hesitation that our connection with the
P.N.E.U. has been of inestimable benefit to the hundreds
of children who have passed through the School."
